### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record do not teach or suggest, in the claimed combination thereof, a superconducting transformer, comprising:

- a first primary winding for electrically connecting with an alternating power source, and having a first plurality of turns of superconducting tape;

- a second primary winding for electrically connecting with the source and having a second plurality of turns of superconducting tape;

- a first secondary winding for electrically connecting with a load, the first secondary winding magnetically coupled to the first primary winding and having a third plurality of turns of superconducting tape;

- a second secondary winding for electrically connecting with the load, the second secondary winding magnetically coupled to the second primary winding and having a fourth plurality of turns of superconducting tape; and

- a sheath surrounding all of the windings;

wherein the first primary winding, the second primary winding, the first secondary winding, and the second secondary winding are concentrically nested; and wherein each respective winding is comprised of a twisted filament superconductor having one or more filaments.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
